GUIDE TO THE HOMELAND SECURITY GRANT PROGRAM

VIRGINIA DEPARTMENT OF EMERGENCY MANAGEMENT

Fact Sheet on Homeland Security Grants Program

The Homeland Security Grants Program is a combination of five programs. These programs are designed to complement each other as well as support the National Preparedness Goal and the National Priorities. The state grant application consists of projects or investment strategies that support these as well as the State Homeland Security Strategy and Enhancement Plan. Virginia's Homeland Security Strategy and Enhancement Plan were developed through a review of the principles behind the National Goal and Priorities as applied to the National Planning Scenarios, Universal Task List and Target Capabilities List.

The five programs included in this grant program are:

- State Homeland Security Grant
- Law Enforcement Terrorism Prevention Program
- Metropolitan Medical Response System
- Urban Area Security Initiative
- Citizen Corps Program

Separate fact sheets have been created for each program area.

State Administrative Agency: In Virginia, the Virginia Department of Emergency Management (VDEM) is the designated SAA. VDEM is the only organization in Virginia eligible to apply for the grants funds.

State/Local Funding Split: Eighty percent (80%) of the funds allocated to this portion of the grant are to be spent on behalf of or by local jurisdictions. States may retain some or all of the local unit of government's allocation of grant funds for expenditures made by the State on behalf of the local unit of government. States holding grant funds on behalf of local units of government must enter into a formal MOU with the local unit of government specifying the amount of funds to be retained by the State and the intended use of funds. Twenty percent (20%) of the funds are allocated to state expenditures that may include planning or administrative functions and include the allowable 5% management and administrative costs. Local jurisdictions are not given a set amount based on population or project. Instead one locality often serves as the fiscal agent for a project that is implemented regionally.

Investment Identification and Prioritization: VDEM, in concert with the Governor's Office of Commonwealth Preparedness and members of the Commonwealth Preparedness Working Group, hosts an annual stakeholders meeting to discuss and prioritize the grant initiatives. There are many opportunities for input into this process prior to the stakeholder meeting. To be included in regional and state focus groups, contact the Governor's Office of Commonwealth Preparedness.

National Preparedness Goal Vision: "To engage Federal, State, local, and tribal entities, their private and non-governmental partners, and the general public to achieve and sustain risk-based target levels of capability to **prevent**, **protect** against, **respond** to, and **recover** from major events in order to minimize the impact on lives, property, and the economy." (Department of Homeland Security)

The National Preparedness Goal utilizes a Capabilities-Based Planning approach: planning, under uncertainty, to provide capabilities suitable for a wide range of threats and hazards, within an economic framework that necessitates prioritization and choice. Capabilities-Based Planning addresses uncertainty by analyzing a wide range of possible scenarios to identify required capabilities.

National Priorities: The national Preparedness Goal also includes seven national priorities. Following is a chart of the priorities and the target capabilities connected to each priority.

Overarching Priorities

- Implement the National Incident Management System and National Response Plan
- Expanded Regional Collaboration
- Implement the National Infrastructure Protection Plan

Capability- Specific Priorities

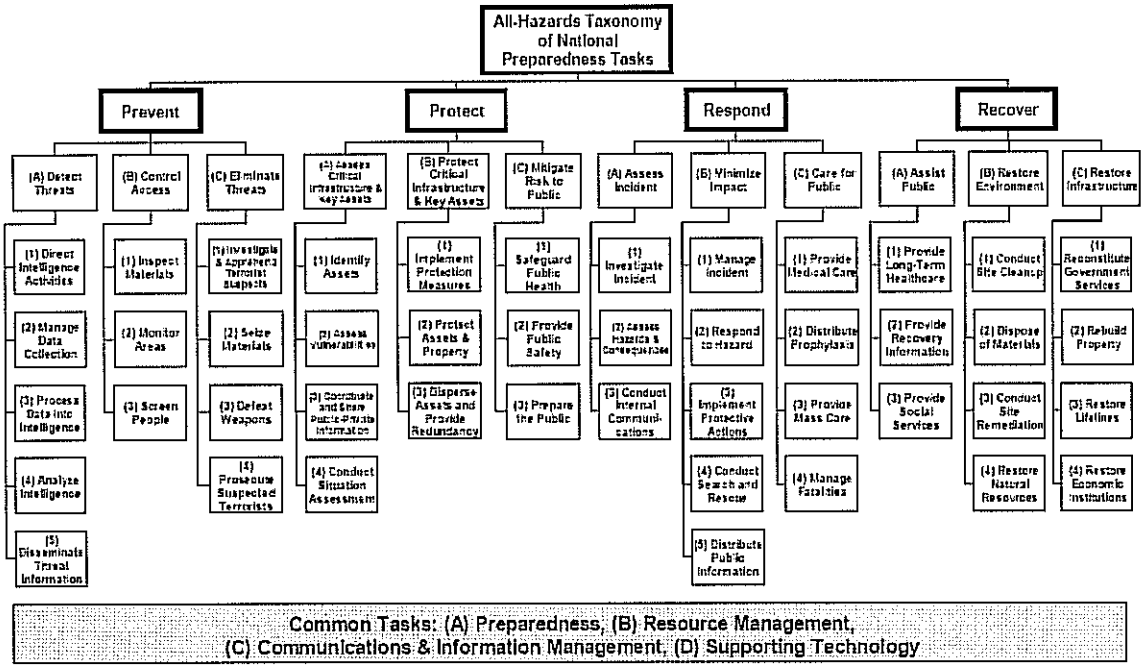
- Strengthen Information Sharing and Collaboration Capabilities
- Strengthen Interoperable Communications Capabilities
- Strengthen CBRNE Detection, Response, and Decontamination Capabilities
- Strengthen Medical Surge and Mass Prophylaxis Capabilities

National Planning Scenarios: Fifteen ***National Planning Scenarios*** highlight a plausible range of major events such as terrorist attacks, major disasters, and other emergencies, that pose the greatest risk to the Nation. The scenarios are not intended to be exhaustive or predictive. Nor do they do address every possible situation, but in combination, they illustrate the tasks and capabilities required to respond to a wide range of major events. The fifteen scenarios are as follows:

1. Improvised Nuclear Device
2. Aerosol Anthrax
3. Pandemic Influenza
4. Plague
5. Blister Agent
6. Toxic Industrial Chemical
7. Nerve Agent
8. Chlorine Tank Explosion
9. Major Earthquake
10. Major Hurricane
11. Radiological Dispersal Device
12. Improvised Explosive Device
13. Food Contamination
14. Foreign Animal Disease
15. Cyber

Universal Task List -The ***Universal Task List (UTL)*** is a useful planning reference: a comprehensive menu of tasks that may be performed in major events illustrated by the National Planning Scenarios. The UTL describes "*what*" tasks need to be performed. Federal, State, local, and tribal entities reserve the flexibility to determine "*who*" needs to perform them and "*how*" to perform them.

Figure 1: All-Hazards Taxonomy of National Preparedness Tasks (Universal Task List):



Source: Department of Homeland Security Target Capabilities List Version 1.1 (http://www.ojp.usdoj.gov/odp/docs/TCL1_1.pdf)

Target Capabilities List: The ***Target Capabilities List*** (TCL) provides guidance on the specific capabilities and levels of capability that Federal, State, local, and tribal entities will be expected to develop and maintain. A capability may be delivered with any combination of properly planned, organized, equipped, trained, and exercised personnel that achieves the outcome. The list, by category, is as follows:

Common-Target Capabilities

Planning (Preparedness)
Interoperable Communications (Communications and Information Management)

Prevent Mission Area-Target Capabilities

Information Collection and Threat Recognition (Manage Data Collection)
Intelligence Fusion and Analysis (Analyze Intelligence)
Information Sharing and Collaboration (Disseminate Threat Information)
Terrorism Investigation and Apprehension (Investigate and Apprehend Terrorist Suspects)
CBRNE Detection (Defeat Weapons)

Protect Mission Area-Target Capabilities

Risk Analysis (Assess Vulnerabilities)
Critical Infrastructure Protection (Protects Assets & Property)
Food and Agriculture Safety and Defense (Safeguard Public Health)
Public Health Epidemiological Investigation and Laboratory Testing (Safeguard Public Health)
Citizen Preparedness and Participation (Prepare the Public)

Respond Mission Area-Target Capabilities

On-Site Incident Management (Manage Incident)
Emergency Operations Center Management (Manage Incident)
Critical Resource Logistics and Distribution (Manage Incident)
Volunteer Management and Donations (Manage Incident)
Worker Health and Safety (Manage Incident)
Public Safety and Security Response (Manage Incident)
Animal Health Emergency Support (Respond to Hazard)
Environmental Health and Vector Control (Respond to Hazard)
Explosive Device Response Operations (Respond to Hazard)
Firefighting Operations/Support (Respond to Hazard)
WMD/Hazardous Materials Response and Decontamination (Respond to Hazard)
Citizen Protection: Evacuation and/or In-Place Protection (Implement Protective Actions)
Isolation and Quarantine (Implement Protective Actions)
Search and Rescue (Conduct Search and Rescue)
Emergency Public Information and Warning (Distribute Public Information)
Triage and Pre-Hospital Treatment (Provide Medical Care)
Medical Surge (Provide Medical Care)
Medical Supplies Management and Distribution (Provide Medical Care)
Mass Prophylaxis (Distribute Prophylaxis)
Mass Care (Sheltering, Feeding, and Related Services) (Provide Mass Care)
Fatality Management (Manage Fatalities)

Recover Mission Area-Target Capabilities

Structural Damage Assessment and Mitigation (Rebuild Property)
Restoration of Lifelines (Restore Lifelines)
Economic and Community Recovery (Restore Economic Institutions)

January 9, 2006

Mr. Michael Cline
State Coordinator
Virginia Department of Emergency Management
10501 Trade Court
Richmond, VA 23236

Re: **Stakeholder Meeting for the 2006 Department of Homeland Security Grant Program – Participation by Members of Your Agency**

Dear Mr. Cline:

The Department of Homeland Security (DHS) has issued its 2006 Grant Program Guidance and Application Kit. In previous years DHS allocated a specific dollar amount to Virginia and asked the Commonwealth to report on how we intended to spend the funds. This year, however, the DHS Grant approach has changed. For the 2006 Grant DHS is requiring Virginia to define what activities are to be performed at the beginning of the grant process. All proposed activities submitted to DHS will compete against proposals solicited from all other states. Only those deemed most worthy by DHS will receive funding.

The Commonwealth Preparedness Working Group (CPWG) has identified members of your staff as being critical to the development of these proposed activities. To coordinate agency stakeholder input, the Commonwealth is hosting a two-day meeting, January 17-18, 2006, in Richmond. At this meeting those present will assist in the identification of Virginia's Homeland Security capabilities, gaps, and shortfalls, and develop specific projects intended to improve Virginia's security. We are asking that you allow the following individuals to participate in this meeting and provide their expertise to the Grant application process:

[Names of Identified Individuals]

The CPWG will provide meeting information to these individuals directly.

The meeting will be held at the Sheraton Richmond West, 6624 West Broad Street, in Richmond (telephone number (804) 285-2000). Attendees should contact the hotel directly regarding lodging and reference the "Virginia Department of Emergency Management Homeland Security Conference." A block of rooms has been reserved until Wednesday, January 11, 2006. It is important that all attendees requiring lodging make their

reservations early. All travel, lodging (for the nights of January 16 and 17), and *per diem* expenses will be reimbursed according to the Commonwealth of Virginia Travel Regulations.

DHS has required Virginia to provide a completed Grant Application to them no later than March 2, 2006. DHS has indicated that there will be no extension to this deadline. While the time frames for this grant are short and completion of the process will be challenging, it is vital that the Commonwealth's Grant Application contains as much stakeholder input as possible.

Thank you very much for your assistance in this effort. I apologize for the necessarily short response time. Through your efforts I am sure that the 2006 Grant will provide for agencies and localities within the Commonwealth to advance our collective preparedness.

If you have any questions, please feel free to contact Ms. Brookie Crawford at (804) 897-6500, extension 6536, or Mr. Brett Burdick at (804) 897-6500, extension 6569. I look forward to working with your staff.

Sincerely,

Michael M. Cline

2006 Homeland Security Grant Stakeholders Meeting

January 17-18, 2006

Agenda

Tuesday, January 17, 2006

8:00AM	Registration and Continental Breakfast
9:00AM	Introduction and Housekeeping Information
	Mr. Michael Cline *State Coordinator of Emergency Management*
	Mr. Robert Crouch *Assistant to the Governor for Commonwealth Preparedness*
9:30AM	DHS Perspective
	Mr. Nick Peake *Department of Homeland Security, Office of Grants and Training*
10:30AM	2006 Stakeholder's Meeting Process and Outcomes
	Mr. Brett Burdick *Virginia Department of Emergency Management*
	Mr. Julian Gilman *Virginia Department of Emergency Management*
11:30 AM	Begin Breakout Sessions
12:00	Lunch (provided)
1:00PM	Breakout Sessions
5:00PM	Conclude

Wednesday, January 18, 2006

8:00AM	Continental Breakfast
8:30AM	Travel Voucher Preparation Training
	Mr. Ron Hargrave *Virginia Department of Emergency Management*
9:00AM	Breakout Sessions
12:00	Lunch (provided)
1:00PM	Breakout Sessions
5:00PM	Conclude

2006 STAKEHOLDERS MEETING

STATE: *Virginia*

TEAM MEMBER IDENTIFICATION:

Name	Jurisdiction/Employer	Sector/Agency
Charles Jett	Stafford County Sheriffs' Office	Virginia State Sheriffs' Association
Danny Fox	Mecklenburg County Sheriffs' Office	Virginia State Sheriffs' Association
Dean Smith	Suffolk City Police	Virginia Municipal League

2006 HOMELAND SECURITY GRANT PROGRAM

INVESTMENT SUMMARY

2006 Homeland Security Grant Program
Investment Summary

Programs: State Homeland Security Program (SHSP) - $8,720,000
Law Enforcement Terrorism Prevention Program (LETPP) - $6,340,000
Citizen Corps Program (CCP) - $434,038
Metropolitan Medical Response System Program (MMRS) - $1,393,980

Investments Submitted and Approved by DHS:

1. **Training for Local and State Officials -** This investment supports the statewide implementation of the National Incident Management System Training (NIMS) and continued support for the Commonwealth's all-discipline terrorism training program.
Award Amount - $ 1,430,514
Local Share - $864,500
State Share - $566,014

2. **Comprehensive Exercise Program -** This investment supports all of the seven National Priorities, the eight Priority Capabilities, and the Overarching Priority of implementing the NIMS and the NRP. As such exercises are a vital part of Virginia's all-hazards emergency management capabilities continued operation of Virginia's Homeland Security Exercise and Evaluation Program-Regional Capability Project (HSEEP-RCP). HSEEP-RCP is the capabilities and performance-based exercise program that provides a standardized policy, methodology, and language for designing, developing, conducting, and evaluating all exercises. This program
3. supports the law enforcement regional team exercises, as well as other discipline-specific and cross-discipline exercise initiatives. Exercises are instrumental in achieving the nationally-desired capabilities in order to meet the Homeland Security Mission areas of prevention, response, recovery, and mitigation. To date, through the regionally-based exercise program, over 110 jurisdictions have participated in the 34 exercises conducted throughout the Commonwealth since February 2005. An additional 17 regional exercises are scheduled to be conducted between now and the end of the current calendar year.
Award Amount - $1,749,599
Local Share - $1,550,000
State Share - $199,599

4. **Local, Regional, and State Planning -** This investment supports the development and implementation of appropriate planning standards statewide; supports the hiring of planners and trainers to be positioned regionally. This investment will support all of the National Priorities, Priority Capabilities, and Virginia's homeland security strategy through enhancements to the planning process. Virginia has received EMAP accreditation for its statewide emergency management processes. Providing standards and model processes to local government will enhance and improve local government planning. The placing of planners and trainers in the regions will enhance regionalization efforts and provide subject matter experts in the field along side local government partners. Personnel would be tasked to assist a manageable number of local governments with their planning process leading ultimately to their accreditation.
Award Amount - $520,225
State Share - $520,225

2006 Homeland Security Grant Program
Investment Summary

4. **Statewide Interoperable Communications** - This investment represents the process and outcomes of the Enhancement Plan for interoperable communications. Through the existing Local and State Interoperability Governance Structure, identified priorities as; operability in rural areas, radio caches, and regional interoperability as well as interoperability training and implementation of radio caches. This process will be overseen, supported and carried out by the committee. This investment will provide the much-needed resources to achieve operable and interoperable communications throughout the Commonwealth. Three statewide radio caches will be positioned, in Fairfax County, Harrisonburg/Rockingham, and the Hampton Roads area. These radio caches will be maintained by the localities and available for deployment anywhere in the state during an event.
Award Amount - $5,000,000
Local Share - $5,000,000

5. **Infrastructure Implementation Initiative** – This investment will cover the implementation of the National Infrastructure Protection Plan (NIPP) of all seven designated regions of the state and will encompass all seventeen sectors of Critical Infrastructure and Key Resources as identified by the Department of Homeland Security. The risk and vulnerability assessment training portion of the Investment will be focused on local entities. This investment will impact each of Virginia's one hundred and thirty four individual political jurisdictions (counties and independent cities) and the entire Commonwealth's population of 7,000,000 citizens. The resilience study will be focused on the Hampton Roads region. The outcomes of this study may be applied statewide. This investment will support implementation for security upgrades for the several Hampton Roads bridge-tunnels and supports a study investigating the resilience of infrastructure in Hampton Roads to impact commerce and the infrastructure statewide for all hazards.
Award Amount - $1,700,000
Local Share - $1,700,000

6. **Medical Enhancements** - This investment supports Virginia's Metropolitan Medical Response Systems with direct pass-through funding.
Award Amount - $1,393,980
Local Share - $1,393,980

7. * **Law Enforcement Operations** - This investment provides enhanced law enforcement capabilities by encouraging regional coordination; establishing Computer Evidence Recovery Units; supporting Tactical Water Operations; acquiring additional explosive-detection canines; and providing night operations equipment for aviation units.
Award Amount - $1,760,325
Local Share - $1,091,000
State Share – 669,325

2006 Homeland Security Grant Program
Investment Summary

8. **Mass Care Enhancements** - This investment supports the development of sufficient shelter capacity for mass evacuations and expands the Family Assistance and Reunification Center model throughout Virginia.
Award Amount – 1,311,594
Local Share - $1,142,500
State Share - $169,094

9. *** Citizen Preparedness** - This investment provides support to Virginia's Citizen Corps programs that provides educational opportunities for Virginia's citizens, volunteer coordination and collaboration, incorporate disaster and emergency management curriculum into Virginia's schools; and provide opportunities to engage Virginia's citizens with special needs and those who live in high-risk areas. Forty-one localities will receive $706,000 to benefit their local Citizen Corps Programs, the Ready VA Campaign will receive $300,000 and the State Citizen Corps Office will receive $128,038.
Award Amount - $1,134,038
Local Share - $1,006,000
State Share - $128,038

10. **Project Management and Future Initiatives** – This investment is to provide project management and administration for all investments submitted to DHS. At the direction of a recent audit performed by the Inspector General, internal auditors and grant management staff have been put in place to ensure that the Commonwealth's Homeland Security Grant process is in compliance.
Award Amount $887,723
State Share – 887,723

Total Award $16,888,018
Total Local Share $13,748,000 *($3,557,000 to be retained at the state for statewide Training, Exercise, and Sheltering programs)*
Total State Share $3,140,018

* See attached breakdown by locality.

2006 Citizen Corps Program Allocations

Jurisdiction	Total Amount	CCP Award Amount	SHSP Award Amount
Accomack County	$25,000	$10,836	$14,164

2006 HOMELAND SECURITY GRANT PROGRAM

TIMELINE

2006 Grant Funds Timeline

Date	Event	Brief Explanation
January 2006	2006 Stake Holders Meeting	250 state and local representatives attended the stakeholders meeting to develop initiatives to submit to DHS for the Homeland Security Grant Program.
July 1, 2006	State awarded funds from DHS	State submitted $43 million in projects and received $16.8 million. Scale back plans had to be implemented across the entire grant package.
September 2006	Improvement Investments were sent to DHS on all required investments	Investments were: Training, Exercises, Planning, Medical Enhancements, Law Enforcement Operations, and Mass Care. Information that was submitted was not sufficient and DHS would send further guidance.
October 2006	Funds available for Citizen Preparedness ($1,134,038), and Interoperability ($5m), and Tidewater Critical Infrastructure Study ($1.7m) Investments.	These projects did not require an improvement investment to be submitted to DHS. Project managers were to move forward in allocating funds.
November 2006	Emergency Management Coordinators Briefings	3 Emergency Management Coordinators Briefings were held. The 2006 grant and the MOU process was discussed by Michael Cline as an agenda item.
January 2007	2007 Stakeholders Meeting	250 State and local representatives attended and the 2007 grant and MOU process were discussed. VDEM encouraged the stakeholders to submit regional projects.
March 2, 2007	Investments approved and released on projects for: Training for State and Local Officials (1,430,514) and Law Enforcement Operations (1,760,325)	Improvements were completed by the project managers and submitted to DHS for approval. This process did take several months. We are still waiting for improvement investments to be finalized and approved for Mass Care.
April 3, 2007	Investments approved and released on projects for: Exercises ($1,749,599), Planning, Medical Enhancements ($1,394,000)	
April 17, 2007	VEMA Conference	The 2006 grant and MOU process was discussed in the grant segment.
June 18, 2007	MOU distributed to jurisdictions	MOU was distributed to all the CAO's to allow the continuation of the statewide programs for training, exercises, and sheltering utilizing approximately 30% of the 80% pass through funds.

National Response Plan	8		8		
Principles of Emergency Management	2		27		$9,536.71
Rapid Assessment Planning Workshop	1		36		$320.20
Recovery from Disasters: The Local Govern Role	3		109		$11,037.62
Warning Coordination	2		40		$1,404.31
*Revised Course Material					
TOTALS	**259**		**3685**		**$299,969.33**

NOTE: Data base does not have the ability to breakdown local from state students but on average 80% are local attendees; 15% state; other 5%

2007-2008 Training: Courses submitted to Div Director for approval

Training Sites: Example: ICS 400 - 12 Courses in the Tidewater/VA Beach area; 9 in NOVA; 7 in Central;
2 courses in Lynchburg; and 1 course in Campbell Co, Farmville, South Hill, and Weyers Cave

NIMS define the preparedness cycle as "planning, training, equipping, exercising, evaluating, and taking action to correct and mitigate." Training to respond to acts of terrorism and CBRNE threats is an important role in this broad preparedness cycle.

To meet the requirements of multiple Homeland Security Presidential Directives, the Commonwealth has a comprehensive terrorism/CBRNE training program to address the gap between traditional transportation and manufacturing based hazardous materials response training and the new realities of domestic and international incident threats. Capabilities-based planning, defined as planning, under uncertainty, to build capabilities suitable for a wide range of threats and hazards while working within an economic framework that necessitates prioritization and choice, is the foundation for the preparedness cycle.

The VDEM sponsored Terrorism Training Program is a statewide comprehensive Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) mechanism used by the state to achieve it homeland security preparedness objectives.

Key points of the program:

- **What is the process for determining which/where training course are held?** In accordance with Department of Homeland Security guidance, training courses are offered annually in each of the seven EM Regions. Working in collaboration with the VDEM Regional Coordinators, stakeholders are consulted to discuss and create an annual training plan. As expressed in our homeland security strategy, the state sponsored program schedules a minimum of six courses, per region, per year. Actual presentation of courses is based upon pre-course registrations as well as local needs and desires of the regions for additional courses. Courses are provided upon request from local emergency response agencies to meet specific training requests for local agencies and existing regional training academies.

  The design and of development of all courses are based on the requirements of the regions and the individual jurisdictions. The flexibility of the Terrorism training Program allows VDEM to tailor the training schedule to reflect current operational considerations.

  Additionally, through our Train-the-Trainer program, the "Public Safety Response to Terrorism-Awareness" course is made available for local presentation by authorized local responders who have completed this program. Local scheduling of courses is supported by VDEM with provision of course materials for both instructors and participants.

- **Where have the training programs been held?** Over 75 separate training programs have been offered in each of the seven EM regions in over 40 separate jurisdictions with students from almost all of the localities in the Commonwealth.

- **What is planned for this year and next**? The Terrorism Training Program plans to continue its process for allocating courses throughout the Commonwealth on a combination of a regional general base schedule supplemented with additional courses upon request of local agencies to meet specific needs and responder expectations.

2006 HOMELAND SECURITY GRANT PROGRAM

EXERCISE INVESTMENT INITIATIVE

FACT SHEET

COMMONWEALTH OF VIRGINIA
HOMELAND SECURITY EXERCISE AND EVALUATION PROGRAM

NIMS define the preparedness cycle as "planning, training, equipping, exercising, evaluating, and taking action to correct and mitigate." Exercises play an important role in this broad preparedness cycle.

To meet the requirements of Homeland Security Presidential Directive 8 (HSPD-8), the Commonwealth has adopted the capabilities-based approach to exercise program management, foundation, design, development, conduct, evaluation, and improvement planning as expressed as part of the Homeland Security Exercise and Evaluation Program (HSEEP). Capabilities-based planning, defined as planning, under uncertainty, to build capabilities suitable for a wide range of threats and hazards while working within an economic framework that necessitates prioritization and choice, is the foundation for the preparedness cycle.

The VDEM sponsored Commonwealth's Homeland Security Exercise and Evaluation - Regional Capability Project (HSEEP-RCP), supported by CRA, Alexandria, VA, to design, develop, deliver, and evaluate a statewide comprehensive Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) and "All-hazards" Exercise Program is the current mechanism used by the state to achieve it homeland security preparedness objectives.

Key points of the program:

- **What is the process for determining which/where exercises are held?** In accordance with HSEEP guidance, annually in each of the seven EM Regions, working in collaboration with the Regional Coordinators, stakeholders are assembled to discuss and create a multi-year training and exercise plan. During the workshop, the participants review priority preparedness capabilities, coordinate training, and exercise activities that can improve those capabilities. From that meeting, the participants' nominate for exercises for consideration by the group, a consensus is reach on what exercises and its related training will be conducted that year. As expressed in our homeland security strategy, the state sponsored program conducts a minimum of two exercises, per region, per year based on the needs and desires of the regions.

  The design and of development of all exercises are based on the requirements of the regions and the individual jurisdictions. The flexibility of the HSEEP-RCP allows the vendor to tailor each exercise based not only on need but also reflect current operational considerations.

FACT SHEET

COMMONWEALTH OF VIRGINIA
HOMELAND SECURITY EXERCISE AND EVALUATION PROGRAM

- **Where have the exercises been held?** Exercises have been conducted in each of the seven regions with over 100 jurisdictions and numerous public and private organizations participating in the effort to date. In concert with the exercises conducted, grant program funding has been used to support five separate deliveries to the regions of homeland security exercise and evaluation related training to provide standardize policy, guidance, methodology, and language for exercise program and project management.

- **What is planned for this year and next**? The following chart depicts the regional exercises currently planned. For NIMS compliance standards and certification, all exercises must involve the participation of at least five jurisdictions.

Location	Exercise Date	Type	Scenario
Region 1	Dec-07	Senior Leader Seminar	Chemical Release/HazMat
Region 2	Sep-07	Full Scale Exercise	Active Shooter/Hostage
Region 3	Oct-07	Tabletop Exercise	Public Health Emergency
	Oct-07	Drill	Point of Dispensing Exercise
	Nov-07	Full Scale Exercise	Active Shooter/Hostage
Region 4	Aug-07	Tabletop Exercise	Natural Hazard
	Nov-07	Tabletop Exercise	Natural Hazard
	Nov-07	Drill	Sheltering/Hospital
Region 5	Feb-07	Functional Exercise	RDD/Terrorism
	Mar-07	Tabletop Exercise	Hurricane
	Apr-07	Full Scale Exercise	RDD/Terrorism
Region 6	Jul-07	Tabletop Exercise	Active Shooter/Hostage
	Aug-07	Tabletop Exercise	RDD/Terrorism
	Sep-07	Tabletop Exercise	Train Derailment
	Oct-07	Full Scale Exercise	Active Shooter/Hostage
Region 7	Oct-07	Workshop	Evacuation
Regions I-VII	Oct-Nov-07	Regional Training and Exercise Workshops	TBD

2006 HOMELAND SECURITY GRANT PROGRAM

SHELTER HARDENING/MASS CARE INVESTMENT INITIATIVE

SHELTER HARDENING INITIATIVE

What is shelter hardening? Any improvements made to a facility that is or can be used as a shelter to make the shelter a more viable, efficient, or safe structure. Examples include but are not limited to: installation of wiring to allow the facility to accommodate a mobile generator, installation of ramps for wheelchair access into and inside of the structure, and retrofitting bathrooms and shower facilities to allow wheelchair access.

What shelters will be hardened? The following is the spreadsheet of facilities that we are looking at hardening with this grant funding cycle. We most likely will not be able to harden all of them. At this time, we are hopeful of getting the first 10 buildings (which would put us through ranking number 6 - UVA) enhanced, but further analysis is needed, which is being coordinated by the Department of General Services.

Rank	Site	City/Locality	Potential Capacity			
			General	SMN	People Total	Pets - Interior
1	VCU-Siegel Center	Richmond	2,500	230	2,730	1,600
2	William & Mary - McCormack-Nagelsen Tennis Center	Williamsburg	1,950	10	1,960	104
3	Eastern State Hospital - Building 14/15 (Davis Building Gym)	Williamsburg	328	0	328	178
4	Virginia State University - Daniel Gymnasium	Chesterfield	650	50	700	122
5	Paul D. Camp Community College (Franklin)	Franklin	440		440	0
6	UVA - Memorial Gymansium	Charlottesville	864	30	894	0
	UVA - University Hall	Charlottesville	0	0	0	3,010
	UVA - Slaughter Recreations Center	Charlottesville	950	100	1,050	0
	UVA - Aquatics and Fitness Center	Charlottesville	1,408	100	1,508	0
	UVA - North Grounds Recreation Center	Charlottesville	600	60	660	0
7	University of Mary Washington - Woodward Campus Center Great Hall	Fredericksburg	391	32	423	0
8	James Madison University - Convocation Center #0064	Harrisonburg	5,500	240	5,740	0
9	Virginia Southern University - Stoddard Activity Center	Buena Vista	997	17	1,014	0
10	Northern Virginia Community College - Medical Education Campus	Springfield	132	317	449	0
11	Richard Bland College - Statesman Hall	Petersburg	573	0	573	0
12	Virginia Military Institute - Cameron Hall	Lexington	573	7	580	226
TOTAL			**17,856**	**1,193**	**19,049**	**5,240**

What will these shelters be used for? These state managed/state staffed shelters will be used to aid in the sheltering of people (including special medical needs) and their pets in the event of a mass evacuation, regardless of the hazard - hurricane, terrorism, etc. and regardless of locality(ies) impacted. In the event of a smaller or localized impact, these shelters will also be made available should local shelter capacity be insufficient.

What else is planned for this year and next? We continue to evaluate further state-owned facilities to determine additional buildings that can be used for sheltering purposes. In total, there were 107 buildings, statewide, that initially indicated they are capable of serving as a shelter. The list above is from the first round of on-site assessments which were the large facilities closest to the Tidewater region. We have nearly finished round two and will soon be evaluating and ranking these buildings also. These buildings are located farther from the coastline, but have a large potential capacity.

There are two additional rounds of on-site evaluations that need to be completed, but will be completed in time. At this time, we are developing site-specific plans for those building from rounds one and two that were determined to be viable. Round 3 on-site evaluations may restart late this fall or next spring. We will contact privately-owned colleges and universities to determine if there is interest and/or availability of buildings on their campuses that can be utilized for sheltering also.

There have been verbal offers made by representatives of localities to open their shelters to supplement the Commonwealth's sheltering capacity. Should these local shelters need hardening; these funds can be directed to that purpose.

What is the process for determining which shelters will be hardened? After the on-site assessments are completed, data is compiled from all involved parties - Department of Social Services (general sheltering), Department of Health (special medical needs sheltering), Department of Agriculture and Consumer Services (pet sheltering), Virginia State Police (security review), Department of Rehabilitative Services (ADA), and Department of Emergency Management (hazard impact). The data is reviewed and from this, buildings are ranked based on viability for sheltering, location, capacity, and ability to co-locate general population/special medical needs/pets. The Department of General Services is analyzing the prioritized list to determine the cost of hardening each shelter, (i.e. retrofitting for generators, etc.) and will prepare a Scope of Work for funding consideration.

2007 HOMELAND SECURITY GRANT PROGRAM

STAKEHOLDERS MEETING

In preparation for the Department of Homeland Security (DHS) 2007 Grant Application we are hosting a two-day stakeholder meeting to discuss and prioritize investment areas. This meeting will be held on **January 29-30, 2007**, at the Sheraton Richmond West Hotel. A draft agenda is attached. This meeting was previously announced as January 30-31, but due to location complications we had to re-schedule to the new date of January 29-30. We apologize if this has caused you any inconvenience.

If you can attend it is vitally important that you Wendy Hoffman as soon as possible on your participation. You also need to designate in which breakout group you will participate. You may contact Wendy Hoffman at (804) 692-2595 or wendy.hoffman@governor.virginia.gov. When contacting Wendy, please make sure you state if you have any lodging/dietary needs. All travel (mileage), required lodging (for the night of January 29th), and *per diem* expenses will be reimbursed according to the Commonwealth of Virginia Travel Policy. Lunch will be provided to all participants on both days.

You have been identified by the Virgnia Fire Programs as being knowledgeable and someone who would be able to represent the voices, concerns and ideas of many at this stakeholder meeting. During this meeting, you will be asked to participate an investment area breakout group in order to discuss and prioritize specific projects within your investment area intended to improve Virginia's security.

The breakout groups are Training & Exercises; Fusion Center; Emergency Medical Services; Planning (Evacuation & Sheltering); Citizen Corps/Outreach; Interoperability; Infrastructure Protection; Law Enforcement; and CBRNE/HAZMAT. If you need more information on any of these breakouts in order to select one, please contact me by reply email or at 804-692-2598.

Detailed information on the grant requirements and other tools that will help you prepare for this meeting are forthcoming.

Thank you very much for your assistance in this effort. Through your efforts we feel that the Commonwealth will develop a cohesive grant application. We look forward to working with you in January.

Sincerely,

Robert P. Crouch, Jr.
Assistant to the Governor
Office of Commonwealth Preparedness

Michael M. Cline
State Coordinator
Virginia Department of Emergency Management

DHS 2007 Homeland Security Grant Stakeholder Meeting
January 29-30, 2007
Sheraton Park West - Richmond, VA

Agenda

Monday, January 29

10:00am **Registration**

10:30am **General Session - Setting the Stage**
- A review of the Grant Guidance, National Priorities, Target Capabilities List, and MORE!

12:15pm **Lunch** *(provided)*

1:00pm **Breakout Groups**
- Discuss investment area, how to incorporate regional input
- Brainstorm any additional ideas
- Identify person(s) who will be assigned to create the investment strategy

Includes afternoon break (2:30pm)

4:30pm **Adjourn**

Tuesday, January 30

7:30-8:15am **Breakfast** *(buffet, you can be seated at any time)*

8:30am **Breakouts Continue**

10:00am **BREAK**

10:15am **General Session – Breakout Presentations**
- Each breakout group will present to the large group a 10 minute summary of their investment ideas
- The larger group will have an opportunity to identify linkages between investments

12:00pm **Working Lunch** *(provided)* **– Breakout Presentations Continue**

2:15pm **Next Steps**
- Timelines and action items to complete the grant application
- Timelines for DHS to determine award level
- Stakeholder process for FY08 grant application

3:00pm **Adjourn**

2007 Stakeholder's Meeting 1/29/07 - 1/30/07

2007 HOMELAND SECURITY GRANT PROGRAM

INVESTMENT SUMMARY

2007 Homeland Security Grant Program

The 2007 Homeland Security Grant application included a range of investments. These investments were priorities and fleshed out at a January 2007 grant stakeholder meeting. This included discussions about investment as follows:

- Training for State and Local Officials (State and Local Funds)
- Homeland Security Exercise and Evaluation Program (State and Local Funds)
- Outreach: Ready Virginia, Public School Education and Citizen Preparedness and Protection (State and Local Funds)
- Metropolitan Medical Response Systems (MMRS Program 100% pass through)
- Enhance Chemical, Biological, Radiological, Nuclear, and Explosive Capabilities (Local Funds)
- Statewide Interoperability Communications & Multi-State Interoperability Baseline (State and Local Funds)
- Critical Infrastructure/Key Resources Protection Program (State and Local Funds)
- Intelligence/Information Sharing (Law Enforcement and Fusion Center)(State and Local Funds)
- Emergency Medical Services and Shelter Registry (State Funds)
- Local Shelter Enhancements (Local Funds)
- Multi-state Evacuation Planning (State and Local Funds)

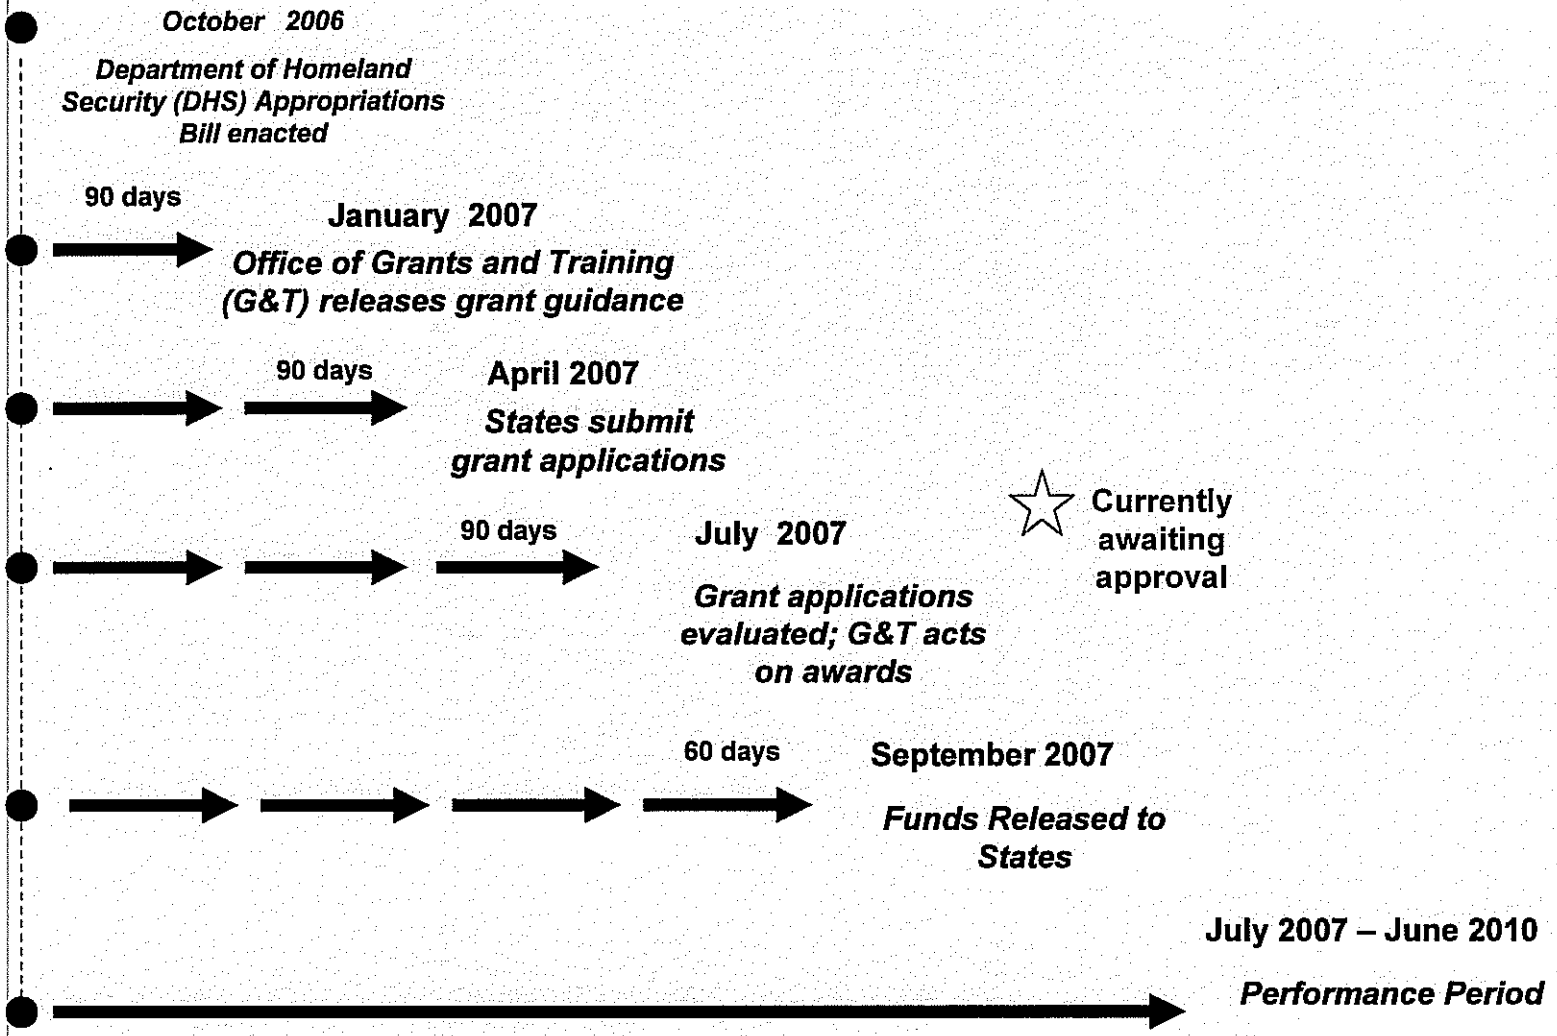
The Commonwealth knows that the entire application request will not be funded. In order to prepare for the day Virginia is notified of the 2007 grant award amount, we are preparing scaleable plans. These scenarios will be developed with the teams who developed the investment justifications with final input from the Office of Commonwealth Preparedness and the Virginia Department of Emergency Management.

Once the investments are finalized and awarded a sub-grant, this information will be posted to the OCP and VDEM websites – under the Grant Initiative page.

2007 HOMELAND SECURITY GRANT PROGRAM

TIMELINE

FY 2007 HSGP Timeline



2008 HOMELAND SECURITY GRANT PROGRAM

FORECAST

2008 Stakeholders Meeting

To prepare for the DHS 2008 grant application, the Office of Commonwealth Preparedness and the Virginia Department of Emergency Management will conduct a statewide capability assessment. This information will be discussed at the fall Regional Preparedness Advisory Committee meetings along with the process for each region to determine their top initiatives.

The Office of Commonwealth Preparedness has established Regional Preparedness Advisory Committees (RPAC) throughout the Commonwealth. The advisory groups meet regularly and focus on regional initiatives in training, equipment, communication, and strategy to ensure ready access to response teams in times of emergency; and to facilitate testing and training exercises for emergencies and mass casualty preparedness. Membership for each RPAC includes representatives from emergency management, fire, law enforcement, local government, the private sector and institutions of higher learning. The Regional Preparedness Advisory Committees serves as the conduit of information and communication for each of the seven Homeland Security regions. Each RPAC has representation from the disciplines involved in all-hazards preparedness.

Homeland Security Grant Capability Assessment

The 2008 Homeland Security Grant application initiatives will be based on the National Priorities, the Virginia State Homeland Security Strategy and the 2007 statewide Capabilities Assessment. The Department of Homeland Security requires assessments on eight (8) priority target capabilities and asks that each state also assess an additional three to five option target capabilities. The final Capabilities Assessment data collection tool will have two parts, a qualitative and quantitative section. The qualitative portion looks at how localities and regions could respond to an incident and how prepared they feel they are. The quantitative section would be an inventory of equipment and training personnel. This tool will develop a capabilities profile of each locality, their respective Homeland Security region and the Commonwealth as a whole. At this time the Office of Commonwealth Preparedness working through the Regional Preparedness Advisory Committees, the Commonwealth Preparedness Working Group and the Secure Commonwealth Panel to gather input into the design of the final capabilities assessment tool.

The National Preparedness System

The Department of Homeland Security has the lead on implementation of HSPD-8 on National Preparedness and has developed a National Preparedness Goal, a Universal Task List, and a Target Capabilities List (TCL). The next step in developing a national preparedness framework is the development a National Preparedness System (NPS) to facilitate the use of the TCL. NPS is being designed to support planning for and assessment of the capabilities required for major events across all levels of government and the private sector.

The National Preparedness System (NPS) provides a tool to assist jurisdictions, agencies, and organizations at all levels to plan for, assess, and track capabilities in a shared environment. It integrates various efforts to provide the comprehensive picture of preparedness and progress toward achieving the Goal.

The NPS will support a planning and assessment process that will: Provide users at all levels with a comprehensive picture of preparedness requirements and capabilities for their jurisdiction or agency. Identify where capabilities/resources that exceed capacity will come from (e.g., mutual aid, state, federal, and/or private) and use this information to clarify expectations across levels of government. Facilitate the review and updating of plans, procedures, protocols, authorities, and other preparedness requirements. Identify who will perform critical tasks and assess if critical tasks can be performed to the specified level of performance. Also identify gaps and deficiencies and actions to address them.

HOMELAND SECURITY GRANT PROGRAM

FACT SHEETS

Fact Sheet on State Homeland Security Program (SHSP)

Overview: SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, equipment, training, and exercise needs for acts of terrorism. In addition, SHSP supports the implementation of the National Preparedness Goal, the National Incident Management System (NIMS), and the National Response Plan (NRP).

Program Requirements: Use of SHSP funds must be consistent with and supportive of implementation of the State Homeland Security Strategy. Linkages between specific projects undertaken with SHSP funds and strategic goals and objectives will be highlighted through regular required reporting mechanisms.

Virginia's Program: Initiatives in FY07 that are under consideration for this grant submission include:

- Statewide Interoperable Communications
- Infrastructure Protection
- State, Regional & Local Planning
- Training for State and Local Officials
- Comprehensive Exercise Program
- Citizen Preparedness
- CBRNE/HAZMAT
- Intel, Info Sharing, and Fusion Center
- Emergency Public Info (ReadyVA)
- Emergency Medical Services

The process of defining the direction and specific projects within each of these targeted initiatives determines the requested levels of funding for each. The award amount determines the ultimate pool of available funds available to distribute between these initiatives. DHS has provided guidance to states that they should cap their total submissions at no more than twice the amount received in FY06.

Authorized Program Expenditures

- Allowable Planning Costs
  - Public Education and Outreach
  - Develop and implement homeland security support programs and adopt ongoing DHS National Initiatives
  - Develop and enhance plans and protocols
  - Develop and conduct assessments
  - Establish, enhance, or evaluate Citizen Corps related volunteer programs
  - Hiring of full- or part-time staff or contract/consultants to assist with planning activities (not for the purpose of hiring public safety personnel fulfilling traditional public safety duties
  - Conferences to facilitate planning activities
  - Materials required to conduct planning activities
  - Travel/per diem related to planning activities
  - Overtime and backfill costs (IAW operational Cost Guidance)
  - Other project areas with prior approval from G&T
- Allowable Equipment Categories
  - Personal Protective Equipment
  - Explosive Device Mitigation and Remediation Equipment
  - CBRNE Operational Search and Rescue Equipment
  - Information Technology
  - Cyber Security Enhancement Equipment
  - Interoperable Communications Equipment
  - Detection Equipment
  - Decontamination Equipment
  - Medical Supplies and Limited Pharmaceuticals
  - Power Equipment
  - CBRNE Reference Materials

- CBRNE Incident Response Vehicles
- Terrorism Incident Prevention Equipment
- Physical Security Enhancement Equipment
- Inspection and Screening Systems
- Agriculture Terrorism Prevention, Response, and Mitigation Equipment
- CBRNE Response Watercraft
- CBRNE Aviation Equipment
- CBRNE Logistical Support Equipment
- Intervention Equipment
- Other Authorized Equipment

- Allowable Training Costs
  - Overtime and backfill for emergency preparedness and response personnel attending G&T-sponsored and approved training classes and technical assistance programs
  - Overtime and backfill expenses for part-time and volunteer emergency response personnel participating in G&T training
  - Training workshops and conferences
  - Full- or part-time staff or contractors/consultants
  - Travel
  - Supplies
  - Tuition for Higher Education
  - Other items
- Allowable Exercise Related Costs
  - Design, Develop, Conduct and Evaluate an Exercise
  - Exercise planning workshop
  - Full- or part-time staff or contractors/consultants
  - Overtime and backfill costs, including expenses for part-time and volunteer emergency response personnel participating in G&T exercises
  - Implementation of HSEEP
  - Travel
  - Supplies
  - Other items
- Allowable Management and Administrative Costs
  - Hiring of full- or part-time staff or contractors/consultants to assist with the management of the respective grant program, application requirements, compliance with reporting and data collection requirements
  - Development of operating plans for information collection and processing necessary to respond to G&T data calls
  - Overtime and backfill costs
  - Travel
  - Meeting related expenses
  - Authorized office equipment
  - Recurring expenses such as those associated with cell phones and faxes during the period of performance of the grant program
  - Leasing or renting of space for newly hired personnel during the period of performance of the grant program

  NOTE: Up to 15% of the program funds may be used to support the hiring of full or part-time personnel to conduct program activities that are allowable under the FY 2007 HSGP (i.e., planning, training program management, exercise program management, etc.)

Fact Sheet on Law Enforcement Terrorism Prevention Program (LETPP)

Overview: LETPP provides resources to law enforcement and public safety communities (working with their private partners) to support critical terrorism prevention activities, including: establishing / enhancing fusion centers and collaborating with non-law enforcement partners, other government agencies, and the private sector.

Program Requirements: The State Administrative Agency, the Virginia Department of Emergency Management, coordinates the implementation of this program with the Virginia State Police. The grant funds are administered through a competitive process managed by the Virginia Department of Criminal Justice Services. When identifying administrative and planning needs, each grantee should assess current staffing levels and determine whether a portion of the FY 2007 LETPP funds should be used to enhance administrative capabilities within the Virginia State Police.

Jurisdictions are encouraged to prioritize the expenditure of LETTP funds to address identified areas of improvement. Jurisdictions are encouraged to place special emphasis on those expenditures that support interface with the State Fusion Center.

Prior to drawing down and expending FY 2007 LETPP funds to support the fusion process, each jurisdiction must complete the ***Federal Fusion Center Survey*** (which will be distributed via Homeland Security Advisors under separate cover) and participate in an independent review of the completed survey.

Virginia's Program: In Virginia, the FY07 plans are to include programmatic support for the following investment areas:

- Statewide Interoperable Communication
- Law Enforcement Operations
- Training for State and Local Officials
- Comprehensive Exercise Program
-

The process of defining the direction and specific projects within each of these targeted initiatives determines the requested levels of funding for each. The award amount determines the ultimate pool of available funds available to distribute between these initiatives. DHS has provided guidance to states that they should cap their total submissions at no more than twice the amount received in FY06.

Authorized Program Expenditures

- Allowable Planning Costs
  - Public Education and Outreach
  - Develop and implement homeland security support programs and adopt ongoing DHS National Initiatives
  - Develop and enhance plans and protocols
  - Develop and conduct assessments
  - Establish, enhance, or evaluate Citizen Corps related volunteer programs
  - Hiring of full- or part-time staff or contract/consultants to assist with planning activities (not for the purpose of hiring public safety personnel fulfilling traditional public safety duties
  - Conferences to facilitate planning activities
  - Materials required to conduct planning activities
  - Travel/per diem related to planning activities
  - Overtime and backfill costs (IAW operational Cost Guidance)
  - Other project areas with prior approval from G&T
- Allowable Organizational Activities
  - Overtime for information investigative, and intelligence sharing activities (up to 25 percent of the allocation)
  - Reimbursement for select operational expenses associated with increased security measures at critical infrastructure sites incurred during periods of DHS-declared Code Orange
  - Haring of contractors/consultants for participation in information/intelligence analysis and sharing groups or fusion center activities (limited to 25 percent of allocation)

  NOTE: No more than 25 percent of gross amount of an UASI allocation may be used for operational expenses and overtime costs across the three identified operational activities.
- Allowable Equipment Categories

- Personal Protective Equipment
- Explosive Device Mitigation and Remediation Equipment
- CBRNE Operational Search and Rescue Equipment
- Information Technology
- Cyber Security Enhancement Equipment
- Interoperable Communications Equipment
- Power Equipment
- CBRNE Reference Materials
- CBRNE Incident Response Vehicles
- Terrorism Incident Prevention Equipment
- Physical Security Enhancement Equipment
- Inspection and Screening Systems
- CBRNE Response Watercraft
- CBRNE Logistical Support Equipment
- Intervention Equipment
- Other Authorized Equipment

- Allowable Training Costs
  - Overtime and backfill for emergency preparedness and response personnel attending G&T-sponsored and approved training classes and technical assistance programs
  - Overtime and backfill expenses for part-time and volunteer emergency response personnel participating in G&T training
  - Training workshops and conferences
  - Full- or part-time staff or contractors/consultants
  - Travel
  - Supplies
  - Tuition for Higher Education
  - Other items

  NOTE: Grant funds may be used to hire new staff and/or contractor positions to serve as intelligence analysts to support information/intelligence fusion capabilities. *In order to be hired as an Intelligence Analyst, new staff and/or contractor personnel must meet specific criteria as set by DHS and VDEM.*
- Allowable Exercise Related Costs
  - Design, Develop, Conduct and Evaluate an Exercise
  - Exercise planning workshop
  - Full- or part-time staff or contractors/consultants
  - Overtime and backfill costs, including expenses for part-time and volunteer emergency response personnel participating in G&T exercises
  - Implementation of HSEEP
  - Travel
  - Supplies
  - Other items
- Allowable Management and Administrative Costs
  - Hiring of full- or part-time staff or contractors/consultants to assist with the management of the respective grant program, application requirements, compliance with reporting and data collection requirements
  - Development of operating plans for information collection and processing necessary to respond to G&T data calls
  - Overtime and backfill costs
  - Travel
  - Meeting related expenses
  - Authorized office equipment
  - Recurring expenses such as those associated with cell phones and faxes during the period of performance of the grant program
  - Leasing or renting of space for newly hired personnel during the period of performance of the grant program

  NOTE: Up to 15% of the program funds may be used to support the hiring of full or part-time personnel to conduct program activities that are allowable under the FY 2007 HSGP (i.e., planning, training program management, exercise program management, etc.)

Fact Sheet on Citizen Corps Program (CCP)

Overview: The Citizen Corps mission is to bring community and government leaders together to coordinate the involvement of community members in emergency preparedness, planning, mitigation, response, and recovery.

Program Requirements: The FY 2007 Citizen Corps Program (CCP) funds provide resources for States and local communities to: 1) bring together the appropriate leadership to form and sustain a Citizen Corps Council; 2) develop and implement a plan or amend existing plans to achieve and expand citizen preparedness and participation; 3) conduct public education and outreach; 4) ensure clear alerts/warnings and emergency communications with the public; 5) develop training programs for the public, for both all-hazards preparedness and volunteer responsibilities; 6) facilitate citizen participation in exercises; 7) implement volunteer programs and activities to support emergency responders; 8) involve citizens in surge capacity roles and responsibilities during an incident in alignment with the Emergency Support Functions and Annexes; and 9) conduct evaluations of programs and activities.

All grant recipients must register their Citizen Corps Council on the Citizen Corps website, www.citizencorps/gov, and manage their program and contact information listed on the site. The DHS base allocations for the FY07 grant is $328,817. However, based on priority emphasis for this initiative the FY07 grant submission will attempt to secure approximately $700,000 using the general State Homeland Security Grants Program funds.

Virginia's Program: In 2001 Governor Mark Warner created Virginia Corps to capture the renewed spirit of volunteer service and community preparedness that has emerged since Sept. 11, 2001. It serves as a central clearinghouse for volunteer opportunities across Virginia.

Virginia Corps also localizes Citizen Corps -- the national homeland security and preparedness initiative. Virginia's Citizen Corps helps residents make their communities safer from emergencies and disasters by getting them involved in these preparedness efforts. Fifty local Citizen Corps Councils now coordinate outreach and programs, reaching approximately 75 percent of Virginia's population. http://www.vaemergency.com/citcorps/councils/index.cfm

CERTs – Community Emergency Response Teams – are taking off. There are now 50 teams around the state, with more than 2,000 trained Virginia volunteers. Two state agencies and six universities have implemented CERT training, and Nextel and PBS are conducting training for their employees. CERTs provided widespread and significant support during and after Hurricane Isabel; during spring flooding in Tazewell County; after a tornado swept through Danville; and during a TB public health incident in Chesapeake. http://www.vaemergency.com/citcorps/CERT/index.cfm

Neighborhood Watch and Volunteers in Police Service programs now include 4,794 groups across Virginia, averaging 66 households each. These groups have started forming partnerships with local CERT programs to increase enrollment. http://www.vaemergency.com/citcorps/neighborhood/index.cfm

In addition to 12 Virginia Medical Reserve Corps programs established with grant funding, Hampton and Richmond are developing programs without grant money. http://www.vaemergency.com/citcorps/medreserve/index.cfm

Reporting Requirements: All financial reporting requirements for CCP funds are detailed in the grant guidance. The Virginia SAA, Department of Emergency management, must coordinate the financial, programmatic, and administrative issues relating to the Citizen Corps mission with the State Citizen Corps Program Manager. The State Citizen Corps Program Manager must also participate in the G&T required monitoring process.

Authorized Program Expenditures

- Allowable Planning Costs
  - Public Education and Outreach
  - Develop and implement homeland security support programs and adopt ongoing DHS National Initiatives
  - Develop and enhance plans and protocols
  - Develop and conduct assessments
  - Establish, enhance, or evaluate Citizen Corps related volunteer programs
  - Hiring of full- or part-time staff or contract/consultants to assist with planning activities (not for the purpose of hiring public safety personnel fulfilling traditional public safety duties

- Conferences to facilitate planning activities
- Materials required to conduct planning activities
- Travel/per diem related to planning activities
- Overtime and backfill costs (IAW operational Cost Guidance)
- Other project areas with prior approval from G&T

- Allowable Organizational Activities
  - Hiring of full- or part-time staff or contractors for emergency management activities
- Allowable Equipment Categories
  - Information Technology
  - Cyber Security Enhancement Equipment
  - Medical Supplies and Limited Pharmaceuticals
  - Power Equipment
  - CBRNE Reference Materials
  - Other Authorized Equipment
- Allowable Training Costs
  - Overtime and backfill for emergency preparedness and response personnel attending G&T-sponsored and approved training classes and technical assistance programs
  - Overtime and backfill expenses for part-time and volunteer emergency response personnel participating in G&T training
  - Training workshops and conferences
  - Full- or part-time staff or contractors/consultants
  - Travel
  - Supplies
  - Tuition for Higher Education
  - Other items
- Allowable Exercise Related Costs
  - Design, Develop, Conduct and Evaluate an Exercise
  - Exercise planning workshop
  - Full- or part-time staff or contractors/consultants
  - Overtime and backfill costs, including expenses for part-time and volunteer emergency response personnel participating in G&T exercises
  - Implementation of HSEEP
  - Travel
  - Supplies
  - Other items
- Allowable Management and Administrative Costs
  - Hiring of full- or part-time staff or contractors/consultants to assist with the management of the respective grant program, application requirements, compliance with reporting and data collection requirements
  - Development of operating plans for information collection and processing necessary to respond to G&T data calls
  - Overtime and backfill costs
  - Travel
  - Meeting related expenses
  - Authorized office equipment
  - Recurring expenses such as those associated with cell phones and faxes during the period of performance of the grant program
  - Leasing or renting of space for newly hired personnel during the period of performance of the grant program

Fact Sheet on Metropolitan Medical Response System (MMRS)

Overview: MMRS funds support designated jurisdictions to further enhance and sustain a regionally integrated, systematic mass casualty incident preparedness program that enables a response during the first crucial hours of an incident. The program prepares jurisdictions for response to all-hazards mass casualty incidents, including CBRNE terrorism, epidemic disease outbreaks, natural disasters, and large-scale hazardous materials incidents.

Virginia's Eligible Regions: Arlington County, City of Chesapeake, City of Newport News, City of Norfolk, City of Richmond, and City of Virginia Beach

Allocation of Funds: MMRS is inherently multi-jurisdictional; funds must be expended to support each regional MMRS to establish and sustain enhanced local capabilities. The DHS designated base allocation for MMRS in FY07 $1,548,871 (includes the 5% allowance for management and administration). DHS encourages states are encouraged to pass through 100 percent of grant funds, but states may retain up to 20 percent to facilitate strategy assessment and capability integration between the State and MMRS jurisdictions. The Commonwealth must have written concurrence between VDEM and the MMRS Steering Committee Chair to use any such funds to:

- Support mass casualty preparedness in regional MMRS Operational Areas overall
- Advise and assist MMRS jurisdictions in awareness of, and in providing input to, State and Urban Area Homeland Security Assessments, Strategies, Enhancement Plans, Investment Justifications, and other relevant homeland security requirements
- Provide for MMRS engagement with the Senior Advisory Committee
- Ensure that MMRS-related mutual aid agreements conform with statewide and State regional resource management requirements and capabilities
- Advise and assist MMRS jurisdictions with HSPD-8 preparedness assessments and reporting

MMRS funds must be expended to support efforts to establish and sustain enhanced local capabilities in MMRS jurisdictions. VDEM, in coordination with other relevant State government elements, such as public health, are expected to ensure that MMRS jurisdictions are aware of activities of the Senior Advisory Committee and are able to seek information from, and provide information to that body.

MMRS Priority Target Capabilities/Capability Focus Areas (TC/CFA): The listing below constitutes the revised MMRS Target Capabilities/Capability Focus Areas (TCs/CFAs) for FY 2007. Particular emphasis is placed on the preparedness and performance measures for each Target Capability. MMRS jurisdictions must give priority attention to these TCs/CFAs, but also have the option of using grant funds to improve capabilities in any of the other Target Capabilities listed for MMRS, provided they are reflected in the relevant State and/or Urban Area strategies, the Virginia Enhancement Plan, and relevant Investment Justifications. MMRS jurisdictions must also sustain enhanced capabilities achieved through the implementation of prior years' program guidance and funding.

1. Strengthen Medical Surge Capabilities
2. Strengthen Mass Prophylaxis Capabilities
3. Strengthen WMD/Hazardous Materials Response and Decontamination Capabilities
4. Strengthen Interoperable Communications Capabilities
5. Strengthen Information Sharing and Collaboration Capabilities
6. Expand Regional Collaboration
7. Triage and Pre-Hospital Treatment
8. Medical Supplies Management and Distribution
9. Mass Care (Sheltering, Feeding, and Related Services)
10. Emergency Public Information and Warning
11. Fatality Management

For additional information on the TC/CFAs, please see http://www.ojp.usdoj.gov/odp/grants_hsgp.htm or https://www.mmrs.fema.gov.

Pandemic Influenza Preparedness

MMRS Contributions to Preparedness: As stated in the *National Strategy for Pandemic Influenza,* "Preparing for a pandemic requires the leveraging of all instruments of national power, and coordinated action by all segments of government and society."

The HHS Plan, "Public Health Guidance on Pandemic Influenza for State and Local Partners," Section 2 provides that, "An effective local response will depend on pre-established partnerships and collaborative planning by public health officials, hospital administrators, and community leaders, who have considered a range of best-case and worst-case scenarios. It will require flexibility and real-time decision-making, guided by epidemiologic information on the pandemic virus."

The MMRS purpose, partnerships, guidance, and capabilities achieved by MMRS jurisdictions provide a proven and established foundation for this collaborative planning. Accordingly, an overarching requirement for MMRS jurisdictions is the revision and updating of Continuity of Operations/Continuity of Government (COOP/COG) plans for emergency medical, mental health, and public health functions, and their supporting infrastructure, throughout their Operational Area. Key aspects of this activity include:

- Reviewing mutual aid agreements to ensure that they include the sharing of facilities, personnel, equipment and supplies, to include provisions for closing facilities when their key resources are decremented to the point of non-viability and making available their able personnel and remaining supplies and equipment to facilities that are viable
- Stockpiling and priority dispensing of influenza vaccine and anti-viral medication to first responders and first receivers
- Providing enhanced public safety protection of mass casualty response facilities and resources such as medical treatment facilities and pharmaceutical storage and dispensing sites.
- Establishing legal authorities incorporating Altered Standards of Care
- Updating COOP/COG plans to include clear lines of succession for key management positions; protection of essential records, facilities, equipment, and personnel; operation of alternate facilities; and functioning of emergency communications

The CDC-PHEP FY 2006 Cooperative Agreement guidance, including the Phase II PanFlu Preparedness Supplement, provides for discounted bulk purchases for anti-viral pharmaceuticals and ventilators. MMRS jurisdictions should access that source for these materials before using MMRS grant funds to acquire them.

NIMS Compliance: MMRS jurisdictions are invited to participate in a pilot project, "Deployability of MMRS Assets," and are requested to emphasize certain elements of the recently released, "NIMS Compliance for Hospitals and Healthcare System." Details are provided at http://www.ojp.usdoj.gov/odp/grants_hsgp.htm.

Capabilities Documentation: MMRS jurisdictions are strongly encouraged to keep current their "Inventory of Capabilities" documentation as a key reference for: general operational briefings and training; mutual-aid operational uses; NIMS-compliant resources management activities; inputs to State/UASI homeland security strategies, Enhancement Plans and Investment Justifications; and data for national preparedness assessments.

Medical Reserve Corps: The Medical Reserve Corps (MRC) program is administered by the Office of the Surgeon General and is a key source for volunteers to support mass casualty incidents. MMRS jurisdictions are encouraged to establish and support MRC units. Up to $25,000 per MMRS jurisdiction may be used to support local MRC units.

MRC units are community-based and are composed of local volunteer medical and public health professionals, as well as others without health backgrounds. These groups supplement existing emergency response capabilities and contribute to meeting the public health needs of the community throughout the year. MRC units are not intended to replace or substitute for local, existing emergency response systems. The local MRC unit provides an organized framework to identify, credential, train, and prepare volunteers.

The following are examples of the types of allowable expenses that MMRS jurisdictions may consider when supporting/establishing MRC units:

• Organizing the MRC unit, including establishment of a leadership and management structure (through hiring of full or part-time staff or contractors/consultants)
• Implementing mechanisms to assure appropriate integration and coordination with existing local emergency response and health assets and capabilities (including provision of legal protections for volunteers)
• Developing plans to organize and mobilize the MRC unit in response not only to urgent needs, but also to address other public health needs in the community
• Recruiting volunteers for the MRC unit
• Credentialing MRC volunteers
• Training MRC volunteers
• Equipping MRC volunteers

Authorized Program Expenditures

- Allowable Planning Costs
  - Public Education and Outreach
  - Develop and implement homeland security support programs and adopt ongoing DHS National Initiatives
  - Develop and enhance plans and protocols
  - Develop and conduct assessments
  - Establish, enhance, or evaluate Citizen Corps related volunteer programs
  - Hiring of full- or part-time staff or contract/consultants to assist with planning activities (not for the purpose of hiring public safety personnel fulfilling traditional public safety duties
  - Conferences to facilitate planning activities
  - Materials required to conduct planning activities
  - Travel/per diem related to planning activities
  - Overtime and backfill costs (IAW operational Cost Guidance)
  - Other project areas with prior approval from G&T
- Allowable Equipment Categories
  - Personal Protective Equipment
  - CBRNE Operational Search and Rescue Equipment
  - Information Technology
  - Cyber Security Enhancement Equipment
  - Interoperable Communications Equipment
  - Detection Equipment
  - Decontamination Equipment
  - Medical Supplies and Limited Pharmaceuticals
  - Power Equipment
  - CBRNE Reference Materials
  - CBRNE Incident Response Vehicles
  - Inspection and Screening Systems
  - Agriculture Terrorism Prevention, Response, and Mitigation Equipment
  - CBRNE Logistical Support Equipment
  - Other Authorized Equipment
- Allowable Training Costs
  - Overtime and backfill for emergency preparedness and response personnel attending G&T-sponsored and approved training classes and technical assistance programs
  - Overtime and backfill expenses for part-time and volunteer emergency response personnel participating in G&T training
  - Training workshops and conferences
  - Full- or part-time staff or contractors/consultants
  - Travel
  - Supplies
  - Tuition for Higher Education
  - Other items
- Allowable Exercise Related Costs
  - Design, Develop, Conduct and Evaluate an Exercise
  - Exercise planning workshop
  - Full- or part-time staff or contractors/consultants

- Overtime and backfill costs, including expenses for part-time and volunteer emergency response personnel participating in G&T exercises
- Implementation of HSEEP
- Travel
- Supplies
- Other items

- Allowable Management and Administrative Costs
  - Hiring of full- or part-time staff or contractors/consultants to assist with the management of the respective grant program, application requirements, compliance with reporting and data collection requirements
  - Development of operating plans for information collection and processing necessary to respond to G&T data calls
  - Overtime and backfill costs
  - Travel
  - Meeting related expenses
  - Authorized office equipment
  - Recurring expenses such as those associated with cell phones and faxes during the period of performance of the grant program
  - Leasing or renting of space for newly hired personnel during the period of performance of the grant program

FACT SHEET

Homeland Security

Implementing Homeland Security Presidential Directive 8: A Federal, State, Local and Tribal Partnership

The President issued Homeland Security Presidential Directive 8: *National Preparedness* (HSPD-8) in order to develop a national domestic preparedness goal, establish mechanisms for improved delivery of Federal preparedness assistance to State and local governments, and strengthen the preparedness capabilities of Federal, State, local, and tribal entities. HSPD-8 requires the Department of Homeland Security (DHS) to coordinate with the heads of other appropriate Federal departments and agencies and consult with State and local governments. Recognizing that preparedness is a *national* effort, DHS has engaged stakeholders at all levels of government and in the private and non-profit sectors at every stage of HSPD-8 implementation:

The Integrated Concept Teams

Three Integrated Concept Teams were convened to address major objectives of HSPD-8: Balanced Investments; Training, Exercises, and Lessons Learned; and Assessment and Reporting. Each team met over a span of three months to develop a vision, explore the current state of programs in their scope, outline the system design needed to support the vision, and identify an implementation approach to migrate to the desired system. Each team had substantial representation from Federal, State, and local stakeholders outside of DHS.

Conferences and Workshops

DHS has held Workshops to review both the Universal Task List (UTL) and the Target Capabilities List (TCL) to solicit input from key stakeholders. More than 170 Federal, State, local, and tribal representatives attended each meeting and provided valuable insight and suggestions on the UTL and TCL.

Ongoing Working Groups

DHS has worked closely with a small Federal Working Group and a working group of State, local, and tribal representatives. Over the course of several meetings these Working Groups have reviewed all aspects of the UTL, TCL, and Goal. They have also provided feedback on improving communication, education, and outreach efforts. Organizations represented on the State, local, and tribal working group are listed in the box above.

ORGANIZATIONS REPRESENTED ON THE STATE, LOCAL, AND TRIBAL WORKING GROUP

- American Public Works Association
- Association of State & Territorial Health Officials
- City of New York Office of Emergency Management
- County Executives of America
- Fraternal Order of Police
- International Association of Chiefs of Police
- International Association of Emergency Managers
- International Association of Fire Chiefs
- National Association of Counties
- National Association of County and City Health Officials
- National Association of Towns and Townships
- National Emergency Management Association
- National League of Cities

Broad Review by Stakeholders

The Interim National Preparedness Goal and other key documents have been posted online for broad review by stakeholders. More than 1500 organizations were invited to comment, including Federal, State, local, and tribal agencies, the private and non-profit sectors, and national professional associations. This number includes 398 municipalities, 112 State agencies, and 94 national associations. This broad review has enabled stakeholders representing all emergency disciplines and every State and territory to provide comments and input on target capabilities.

FACT SHEET

Homeland Security

A Common Approach to Preparedness: The National Preparedness Goal

Terrorist attacks, natural disasters, and other emergencies respect neither political nor geographic boundaries. To deal with major events effectively requires a national preparedness system that makes clear the roles and missions of entities at all levels, strengthens preparedness partnerships, establishes performance objectives and measures, and directs the allocation of resources and prioritization of investments. A major milestone in building this national preparedness system is the Interim National Preparedness Goal (the Goal). The Goal will transform the way we think about preparedness by defining *capabilities* that must be in place, at appropriate levels, to prevent and respond to current and future threats and hazards. The Goal establishes measurable targets and priorities to guide the Nation's planning, and provides a systematic approach for determining how prepared we are, how prepared we need to be, and how we should prioritize efforts to close the gap.

Homeland Security Presidential Directive 8

Homeland Security Presidential Directive 8: *National Preparedness* (HSPD-8) calls for an all-hazards ***National Preparedness Goal*** that establishes measurable priorities, targets, and a common approach to developing needed capabilities.

Capabilities-Based Planning

The Goal utilizes a Capabilities-Based Planning approach: planning, under uncertainty, to provide capabilities suitable for a wide range of threats and hazards, within an economic framework that necessitates prioritization and choice. Capabilities-Based Planning addresses uncertainty by analyzing a wide range of possible scenarios to identify required capabilities. The Capabilities-Based Planning tools and products are:

National Preparedness Goal Vision:

"To engage Federal, State, local, and tribal entities, their private and non-governmental partners, and the general public to achieve and sustain risk-based target levels of capability to prevent, protect against, respond to, and recover from major events in order to minimize the impact on lives, property, and the economy."

- *National Planning Scenarios*: Planning documents that provide parameters for 15 terrorist attacks and natural disasters, providing the basis to define prevention, protection, response and recovery tasks, and the capabilities required to perform them.
- *Universal Task List*: A reference tool that provides a comprehensive menu of tasks to be performed by different disciplines at all levels of government to address major events.
- *Target Capabilities List*: A list and description of the capabilities needed to perform critical homeland security tasks found in the Universal Task List.

The National Priorities

The National Preparedness Goal also includes seven **national priorities**. The national priorities are: Implement the National Incident Management System (NIMS) and the National Response Plan (NRP), Expanded Regional Collaboration, Implement the Interim National Infrastructure Protection Plan, Strengthen Information Sharing and Collaboration Capabilities, Strengthen Interoperable Communications Capabilities, Strengthen CBRNE Detection, Response and Decontamination Capabilities, and Strengthen Medical Surge and Mass Prophylaxis Capabilities. Efforts to achieve these seven priorities will not only address essential needs in the near-term, they will also reinforce national efforts to achieve the target capabilities that are imperative to national preparedness for the longer-term.

For more information, go to http://www.ojp.usdoj.gov/odp/assessments/hspd8.htm
The Planning Tools are available at the secure sites https://odp.esportals.com and http://www.llis.gov

2007
Virginia Emergency Management Conference

CONFERENCE OVERVIEW

Mr. William "Bill" Sammler - Master of Ceremonies

Tuesday APRIL 17

10 AM – 5 PM — CONFERENCE REGISTRATION

10 AM – 2 PM — SECURE COMMONWEALTH PANEL

2 – 4 PM — GIS AND EMERGENCY MANAGEMENT

GIS Session $20 / person

Session presenting cutting edge information on GIS technology available for use by the emergency management community and how GIS professionals can better interact with Local Emergency Managers.

4 – 5 PM — INTERNATIONAL ASSOCIATION OF EMERGENCY MANAGERS REGIONAL MEETING

8:30 – 10:30 PM — CAPTAIN'S RECEPTION

An evening of networking with conference attendees and guests.

Wednesday APRIL 18

7:30 – 8:30 AM — COFFEE SERVICE

8 AM – 5 PM — CONFERENCE REGISTRATION

8 AM – 3:30 PM — EXHIBITS OPEN

8:30 AM – Noon — GENERAL SESSION

Opening Remarks
Doug Young, President/VEMA
Michael Cline, State Coordinator/VDEM

Guest Speakers
John Marshall, Secretary of Public Safety
Robert Crouch, Assistant to the Governor for Commonwealth Preparedness

Keynote Speaker
Craig Fugate, Director, Florida Division of Emergency Management

Cold War — Lessons for Today
Gary Powers, Jr.

Jamestown Celebrations
Tal Luton, Fire Chief, James City Co.
Emmett Harmon, Police Chief, James City Co.

Noon – 1:30 PM — LUNCH

1:30 – 2:30 PM — CONCURRENT SESSION A

2:30 – 3:30 PM — VENDOR VISITATION

3:30 – 4:30 PM — CONCURRENT SESSION B

5 – 6 PM — VENDORS SUNSET SEMINARS

Thursday APRIL 19

8 – 8:30 AM — CONTINENTAL BREAKFAST

8:30 AM – 5 PM — CONFERENCE REGISTRATION

8:30 AM – Noon — GENERAL SESSION

Somerset County Pennsylvania — 9-11: Flight 93
Rick Lohr, Emergency Manager

FEMA Region III
Patricia Arcuri, Acting Director (Invited)

Town of Apex, NC — Chemical Fire
Mark Haraway, Fire Chief

Noon – 1:30 PM — AWARDS LUNCHEON

2 – 3 PM — CONCURRENT SESSION C

3:30 – 4:30 PM — CONCURRENT SESSION D

Friday APRIL 20

7:30 – 8 AM — BREAKFAST BUFFET

8 – 11 AM — GENERAL SESSION

Virginia Tech — Near Campus Shooting
Zach Adams, Emergency Planner/VA Tech
Wendell Flinchum, Police Chief/VA Tech

State Interoperability
Chris Essid, Commonwealth Interoperability Coordinator

Department of Homeland Security Grants
Michael Cline, State Coordinator, VDEM
Cheryl Adkins, Grants Manager, VDEM
Susan Mongold, Grant Coordinator, OCP

11 AM — CLOSING REMARKS

Janet Clements, Deputy State Coordinator, VDEM

Hui-Shan Walker, 1st Vice President, VEMA

The Virginia Emergency Management Conference

Shaping Our Destiny

Sponsored by:
Virginia Department of Emergency Management and Virginia Emergency Management Association

The Virginia Emergency Management Conference is designed for anyone whose professional interests involve preventing, preparing for, responding to, and recovering from emergencies and disasters from all hazards. Nearby Jamestown prepares for a celebration that recalls the events of 400 years ago and how the establishment of the first permanent English settlement in the new world shapes our lives today. Our 2007 conference offers opportunities to learn from a variety of experts in business, public safety and emergency management by recalling past events such as the Cold War Civil Defense era and 9-11. How those events and others will shape our profession tomorrow is necessary to explore today.

This year's conference will begin on Tuesday, April 17, with pre-conference events that reflect local, state, and national interests. The main conference will start on Wednesday, April 18, and conclude on Friday, April 20. Once again the Williamsburg Marriott will be the site of the conference and provide facilities for lodging and dining.

You can register for the conference either online or by mail using the registration form in this brochure. Please register by April 10, 2007.

For more information about the conference, visit the Virginia Department of Emergency Management website, wwwvaemergency.com, or contact Joe Mellander at e-mail vemajoe@aol.com or by phone (703) 577-4285.

Photography Credit: Cover photograph of Godspeed and back photograph of Susan Constant, Godspeed and Discovery, were provided by Jamestown Settlement. These three ships are replicas of the vessels that brought the English colonists to America's first permanent settlement in 1607.

Conference WORKSHOPS

Session A

Emergency Manager/Director Orientation — Part A

Emergency Response in a University Environment

The Town Pickett Story

Animals in Disaster

Session B

Emergency Manager/Director Orientation — Part B

Statewide Mutual Aid — Emergency Management Assistance Compact

Special Needs Population

Weather Events

Session C

Animals in Disaster

State Agencies and You — Part A

Special Needs Population

Business Recovery — City of Franklin

Session D

Managing Volunteers

State Agencies and You — Part B

Private Sector Emergency Management Initiatives

Understanding Islamic Terrorism

Virginia Department of Emergency Management

Fact Sheet: FY 2006 Homeland Security Grant Program (HSGP) Award for the Commonwealth of Virginia

Background on the FY 2006 HSGP:

On September 15, 2006, the US Department of Homeland Security (DHS) approved the Commonwealth's Initial Strategic Implementation Plan (ISIP) for the FY2006 HSGP. Virginia received $17 million less in FY 2006 than it received in FY 2005, due in large measure to reductions in federal homeland security grant appropriations ($700 million across all grant programs) approved by Congress this fiscal year. Moreover, to determine the FY 2006 HSGP allocations from this reduced amount of available grant funds, DHS used a new formula based on "risk" and "need".

Commonwealth's FY 2006 HSGP Award Information:

State Homeland Security Program (SHSP)	$8,720,000
Law Enforcement Terrorism Prevention Program (LETPP)	$6,340,000
Metropolitan Medical Response System (MMRS)	$1,393,980
Citizen Corps Program (CCP)	$ 434,038
Total - ALL Programs with HSGP	$16,888,018

Commonwealth's Approved Investments within the State Homeland Security and Law Enforcement Prevention Programs:	**SHSP**	**LETPP**	**Total**
Comprehensive Exercise Program	$ 1,100,000	$ 450,000	$1,550,000
Statewide Interoperable Communications	$2,000,000	$3,000,000	$5,000,000
Training for State & Local Officials	$ 333,500	$ 531,000	$ 864,500
State, Regional & Local Planning	$ 1,142,500		$1,142,500
Planning & Evacuation/Shelter Hardening			
Law Enforcement Operations		$1,091,000	$1,091,000
Citizen Preparedness	$ 400,000		$ 400,000
Infrastructure Protection Implementation	$2,000,000		$2,000,000
Total – Local Share (SHSP & LETPP)	$6,976,000	$5,072,000	$12,048,000
